

Final Extra Credit 10pts

You must write at least 1.5 pages, double spaced size 12 Times New Roman, DO NOT INCLUDE A HEADER in order to attempt to receive full credit.

Write a report on penicillin, include the following:

- When it was discovered
- Who discovered it
- How is it made
- How does it kill bacteria
- Why is antibiotic resistance a problem?
- How can we combat this problem?
- Any side effects of penicillin?
- Pick another antibiotic and compare it to penicillin (how strong it is, how does it kill bacteria, how is it made, side effects)

You can use any source, but **PLEASE** do **NOT** just copy and paste, use your own words so it can make sense to **YOU**, google your heart out, just make sure its the right info
